# What's so different about IssueTracker?

Issue tracker provides all the functionalities required to create, track and approve project completion. All in easy to set up project environment and it is completely free!

**1** **Project portfolio**

IssueTracker is easy to set up and allows the project manager as well as the development team to maintain a project portfolio of projects that they are assigned to. No more unnecessary notifications about projects that do not concern you.

**2** **Approaching deadlines dashboard**

Prioritize your work and fix the bugs based on the approaching deadlines for projects. Plan ahead, so you can request help earlier if necessary.
